

General Website Overview

User Stories:

As a Developer and Student, I want to be able to be able to grab open source code to enhance the software I'm creating/learn more on coding.

As a Developer, I would like to have access to software and/or code that doesn't require me to be locked into a contract with development companies.

As a Computer Science student, I would like to have access to open source code that will help me create better school projects and create a portfolio to hold the projects.

System Features

1. Create Account
2. Create Project
3. View Categories
4. View Project
5. Import Code
6. Export Code
7. Log out
8. Add Collaborators
9. Share Project:
 - a. Private
 - b. Public
10. Social Media Links

* Will be updated if additional features are implemented
